## Greetings

Fellow Australians and our American friends and people around the World, Lloyd T Vance is back in action with his **"Special International Intelligence Reports"** giving you inside scoops which the Mainstream Media refuse to tell people.

Go make a cuppa coffee, get a beer and sit back and enjoy the next 20 – 30 pages of reading, after this US President Barrack Obama will have to start WW111 to get America out of this mess.

Nobody can say they weren't warned.

Nobody can say they never got the message.

No Plausible Deniability accepted, none, zip, and 0.

## Jack Lew vs. Bernanke

Secretary Jack Lew

U.S. Treasury

Shalom Bernanke

Treasonous traitor Ben

UNITED States of America - It can now be reported that U.S. Treasury Secretary Jack Lew and five (5) U.S. military flag officers led by the State of Michigan have given check kiter and money changer and money launderer Federal Reserve Chairman Ben Shalom Bernanke his last warning.

**Cease and desist now, punk!**

**TRAITOR**

---

END THE FED  
•SUPPORT HR 1207•

---

w w w . r o n p a u l . c o m

Treasury Secretary Lew and the majority of the U.S. military are now enraged at Bernanke and his crooked bank handlers led by JPMorgan Chase for putting the deposits of every American citizen with savings accounts in U.S. banks at risk as counter parties to the European Central Bank (ECB) and the entire European Union (reference Bernanke use of U.S. dollar credit default swaps illegally handed out to foreign banks).

If France or Germany or both leave the European Union and commence with the printing of francs and marks the entire European Union will collapse and the massive euro denominated debt tied to crooked U.S. banks like JPMorgan Chase will put the entire U.S. FDIC at risk.

How dare you, your conspiratorial tyrants and kings and notable queens!

At this hour we can also divulge that ECB President Mario Draghi is in direct conspiracy with U.S. Federal Reserve stooge, caretaker and loser Italian President Mario Monti.

There is a direct attempt by Monti and Draghi to delay a new Italian election so as to continue ponzi scheme activity with money changer, Federal Reserve Chairman Bernanke.

We can now report that the latest worldwide ponzi scheme continues to unravel.

The Central Bank of Japan is now completely engulfed in illegal cross-collateralised derivatives tied to Deutsche Bank and JPMorgan Chase aka naked short positions in the Japanese yen, which now limits the cash yen available in the Japanese treasury to continue any more bond purchases aka yen printing.

Finally, we can happily report that convicted ponzi scheme architect Bernard Madoff is singing like a canary in a secret federal grand jury in New York State.

Madoff is fingering JPMorgan Chase, Bank of America, Citibank, German Deutsche Bank, German Commerzbank and finally Barclays Bank of England, as full co-conspirators in Madoff's ponzi scheme that is now directly linked to the illegal rigging of the London LIBOR rate.

Stay tuned for emergency intelligence briefings at any moment as financial Armageddon is right around the corner. In closing, I ask all American citizens to rise up and understand that we are dealing with Satanic filth in the U.S. political class and the totally corrupt U.S. media whose design is to wreck everything, destroy the Constitution and turn American citizens into bank slaves.

## **Remember, it was our Lord Jesus Christ that chased the moneychangers from the temple.**

It is now time to chase the chief moneychanger and looter of American Treasury funds Ben Shalom Bernanke from American soil. It is also time as courageous American patriot Senator Rand Paul, Republican of Kentucky, states, to empower President John F. Kennedy's June 4, 1963 Executive Order and, at last, decapitate what is now the American nightmare, the crooked and conspiratorial U.S. Federal Reserve Bank.

## 'Secrecy-Cloaked Companies': Deutsche Bank Criticized for Offshore

### Operations

As part of an international reporting project on offshore companies and trusts, two German newspapers are reporting that Deutsche Bank helped to establish some 300 such entities through its operations in Singapore. The news isn't entirely new, but criticism of the company is growing.

## Punk Bernanke Faces Day of Reckoning

UNITED States of America - It can now be reported that privately owned U.S. Federal Reserve Chairman Ben Shalom Bernanke faces immediate arrest by the U.S. military at any moment.

Alleged U.S. President Barack Hussein Obama-Soetoro is clueless while attending NCAA basketball games with the tickets purchased by former U.S. Treasury Secretary, crooked bank stooge Timothy Geithner.

Bernanke has actually created not \$30 TRILLION but **\$300 TRILLION of cross-collateralized derivative debt** on his balance sheet by enabling crooked U.S., European, Australian and Asian banks to use credit default swaps aka U.S. dollar lines of credit issued to the banks.

The collateral for this bogus line of credit are toxic worthless bonds aka mortgage-backed securities that have been worthless since 2008.

The Fed, using their QE programs, uses U.S. Taxpayers' money to continue to buy this crap and falsely hypothesize these worthless toxic assets to be worth something when they are still worth NOTHING!

The crooked banks then proceed to use this fiat line of credit aka free casino chips from the little bitch Bernanke to write totally naked call options in silver and gold and Japanese yen contracts and proceed with the premium collected to buy U.S. stock index futures and then write even more naked put options on the S&P 500 Futures Index.

What Bernanke has created is a massive bank derivative bubble that can collapse at any moment. As the bible states "you know neither the time nor the hour".

At this hour the crooked TREASONOUS Fed is enabling a new ponzi scheme with the Central Bank of Australia, by using naked derivatives collected in the S&P 500 to buy Australian dollar futures and sell Japanese yen futures.

At this hour the Chinese government and the International Monetary Fund (IMF) have warned Ben Shalom Bernanke to liquidate his ponzi scheme or face massive international financial retaliation.

Congratulations to David Stockman, who was the former head of the OMB under great American patriot President Ronald Reagan, for exposing Bernanke's ponzi scheme when he was a guest on Bloomberg (aka crooked bank extortion friendly) News.

Message to Bloomberg News and their Bush-Clinton Crime Family Syndicate stooges Al Hunt and little bitch Judy Woodruff:

HIGH Treason  
Co-Conspirators BushFRAUD, Hank Paulson and Pelosi

The American People are now getting totally enraged!

# Now It Is Total Bank Fraud

UNITED States of America - It can now be reported that Dutch bank ABN Amro, the Nazi German Deutsche Bank and the bank-controlled discount brokerage whorehouse AmeriTrade have not been executing orders for their customers who have been buying long positions and call options in gold and silver but instead collecting the premium and then putting out falsified electronic statements that the customers' own the positions when they do not!

This is the PFG fiasco all over again only on a much larger scale. These gangster banks, with their computer geek enablers, use the premium collected from their customers to then write naked short positions in the gold and silver futures, as well as the Japanese yen currency, with the direct assistance of the privately owned U.S. Federal Reserve and the Central Bank of Japan.

The underwriter for this fraud aka the casino pimps of last resort are JPMorgan Chase and Union Bank of Switzerland.

This new grandiose PFG-style ponzi scheme has now generated \$9.9 TRILLION in illegal cross-collateralized derivatives that threaten to implode the world economy at any moment.

Madoff and Bernanke

**Question:** Is there any difference between Bernard Madoff and Federal Reserve Chairman and crooked bank stooge, Ben Shalom Bernanke?

**Answer:** There is none!

Neither fraudster ever took a course in accounting.

As the April 1st deadline nears for the final implementation of the Wanta-Reagan-Mitterrand Protocols, IMF Managing Director Christine Lagarde, Russian President Vladimir Putin, and the new Chinese government officials have told U.S. Treasury Secretary Jack Lew to sign off on the transfer of funds now or there will be hell to pay!

Hell to pay may have already happened.

In closing, at this hour, the New York COMEX exchange does not have the physical silver or gold to make delivery on specified future contracts.

<http://www.zerohedge.com/news/2013-03-24/another-gold-shortage-abn-halt-physical-gold-delivery>

# Where is the Gold?

UNITED States of America - It can now be reported that IMF officials have expressed great concerns to Federal Reserve Chairman Ben Shalom Bernanke subject the massive foreign currency cross rate imbalances that have been created in the cash currency markets vs the futures contracts.

IMF Managing Director Christine Lagarde told Bernnake over the weekend that his derivatives have become ass backwards and that she will no longer tolerate new derivatives being cross-collateralized with old derivatives and then using the new derivatives as collateral in foreign currency and stock market manipulation.

**Math lesson:** Zero plus zero equals zero.

At this hour we can divulge that Bush-Clinton Crime Family Syndicate stooge and former Deutsche Bank President Joe Ackerman is in Thailand buying up as much gold he can get his hands on.

Ackerman is now representing UBS Switzerland and the National Bank of Liechtenstein.

Note: Ackerman communicates with former First Lady and 5th degree witch Barbara Bush aka "the bookkeeper".

Clearly, folks, a financial emergency is imminent.

We can also divulge that the 2,000 tons of Wanta-Reagan-Mitterrand Protocol Russian gold that was stolen from Wanta and the American and Russian People by former illegal White House occupant George W. BushFRAUD and his Treasury Secretary money launder and check kiter Henry 'Hank' Paulson may have resurfaced.

## **Question: Where is the gold?**

Is it still in Colton, Switzerland with bagman Marc Rich at Glencore Commodities?

Or is it in Thailand being used to manipulate the Thai Baht Currency?

Or is it in the Central Bank of Japan being used to create ass backed derivatives that represent naked short positions in the Japanese yen foreign currency futures?

In closing, I can not emphasize the extent of the financial crisis we are facing as the derivative debt now is actually 1,000 times worse than it was when the financial markets collapsed in 2008.

Despite his celebrity status, alleged President Barack Obama has operated his Administration with his former Treasury Secretary, check kiter Timothy Geithner, as the greatest crooked bank enablers in history.

## **US debt headed toward 200 percent of GDP even after 'fiscal cliff' deal**

The nation's long-term fiscal outlook hasn't significantly improved following the recent agreement between Congress and the White House over tax and spending issues, according to a new analysis.

The "fiscal cliff" deal, combined with the debt-limit agreement of August 2011, only slightly delays the United States reaching debt-to-gross domestic product levels that would damage the economy and risk another fiscal crisis, according to a **report** from the Peter G. Peterson Foundation released on Tuesday.

The agreement "may have prevented the immediate threats that the fiscal cliff posed to our fragile economic recovery, but we haven't remotely fixed the nation's debt problem," said Michael A. Peterson, president and COO of the Peterson Foundation.

"The primary goal of any sustainable fiscal policy is to stabilize the debt as a share of the economy and put it on a downward path, and yet our nation is still heading toward debt levels of 200 percent of GDP and beyond," he said.

The report concludes that the recent round of deficit-reduction measures won't make major improvements because they fail to address most of the major contributors to the debt and deficit, including rapidly rising healthcare costs.

The analysis suggests that lawmakers take action quickly to ensure that the nation is on a sustainable fiscal path.

At a House Ways and Means Committee hearing last week, lawmakers and budget experts agreed that rising healthcare costs, such as Medicare, must be addressed this year as part of efforts to overhaul the tax code and entitlement programs.

"Until spending in those areas is reduced, tax revenues are increased, or policymakers implement a combination of both, the United States will continue to have a severe long-term debt problem," the report said.

"Reforms should be implemented gradually, and fiscal improvements must be achieved before our debt level and interest payments are so high that sudden or more draconian reforms are required to avert a fiscal crisis."

The latest deal that stopped income tax increases for those making \$400,000 a year or less may have only improved the burgeoning debt situation by a year.

Scheduled spending cuts from the 2011 budget deal, combined with the fiscal cliff agreement, put the debt on track to reach 200 percent of GDP by 2040, five years later than was projected prior to the passage of the two deals.

The recent deficit-reduction measure gave the nation an additional year before hitting that 200 percent threshold, the report showed.

Sequestration does not improve the outlook much, either.

Even if the budget sequester is fully implemented, federal debt would still reach 200 percent of GDP within about 28 years.

On top of that, the debt will continue to grow between now and 2022, and will accelerate significantly after that.

Debt is now projected to grow from 72 percent of GDP in 2012 to 87 percent in 2022, down only slightly from the 90 percent that was estimated before passage of the most recent deal.

Many economists suggest keeping debt at or below 60 percent of GDP, with research showing that economic growth slows for countries that have debt levels exceeding 90 percent of economic growth.

"Americans shouldn't be under any false impression that our debt problems are behind us," Peterson said.

"And because it takes years to implement policies fairly and gradually, we need to make decisions now, before we are forced by markets to take severe action that hurts our economy and our citizens."
